The interim financial information is presented in Lao Kip and rounded to the nearest million, unless otherwise stated.

The Bank issued another set of interim separate financial information. The significant difference from this report is the measurement of investment is measured as cost method in the interim separate financial information.

The interim financial information was authorised for issue by Board of Director on 12 November 2020.

2. SIGNIFICANT EVENTS DURING THE CURRENT PERIOD

The Lao PDR Government ordered a temporary one-month halt to operations starting 1 April 2020 for most businesses, except some banks. Precautionary measures instituted with the government lockdown include restrictions and controls over travel and traffic.

The Government appears to have a good strategy for handling the COVID-19 pandemic. Currently, most businesses can run operations as normal except in some sectors such as hospitality and tourism. BCEL ('the Bank') isn't significantly affected by this.

Management considered COVID-19's impact on the Bank based on the situation in Lao PDR and believe there are no significant effects from it.

3. BASIS OF ACCOUNTING

The condensed interim financial information was prepared in accordance with the Bank's accounting policies as described in more detail in the annual financial statements for the year ended 31 December 2019. The primary financial statements (i.e. statements of financial position, income, comprehensive income, cash flows and changes in equity) are presented in a format consistent with the annual financial statements and comply with the reporting and disclosure regulations issued by the Lao Securities Commission Office (LSCO).

According to the laws and regulations on accounting and auditing for the securities sector, issued by the Ministry of Finance (MoF) and LSCO, all listed companies who identify as Public Interest Entities (PIE) are required to prepare their financial statements in accordance with International Financial Reporting Standards (IFRS).

Regarding Notification No. 1137/MoF dated 27 April 2020 issued by MoF, PIE should fully adopt IFRS by 1 January 2026, which was postponed from 31 December 2021.

Also, LSCO issued announcement No. 0009/LSC on 25 May 2020 which states the extended time for listed companies to prepare their action plan for IFRS, which is until 31 December 2025. Listed companies must fully adopt IFRS as of 1 January 2026 onwards.

During the transitional period, PIE must set up a development plan to adopt IFRS and share this with MoF and LSCO for monitoring purposes. The interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2019.

In order to compare the financial report of three-month period of quarter III, it should be compared with financial report of six-month period.

The preparation of interim financial information requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Contingent assets and liabilities are disclosed on the date the condensed interim financial information is prepared, with the amounts of revenues and expenses in the reported periods. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

4. ACCOUNTING POLICY

The accounting policies used in the preparation of the interim financial information are consistent with those used in the annual financial statements for the year ended 31 December 2019, except for those discussed in this section.

With MoF and LSCO's announcement mentioned in note 3 above, the Bank is setting up a plan to fully adopt IFRS in the next few years for their accounting policies. Previously, the Bank adopted the International Financial Reporting Standard no. 13 "Fair value measurement" and the International Financial Reporting Standard no. 7 "Financial Instruments: Disclosures" and they change these accounting policies in 2020. This change has no effect on the interim financial information therefore, there is no retrospective adjustment for this matter.

5. PRIOR YEAR ADJUSTMENT

After revisiting previous year transactions, management found transactions that should've been adjusted in the previous year's financial statements. Those transaction are:

- 5.1 Deferred Income Tax. According to the new Tax Law approved by the National Assembly of Lao PDR on 18 June 2019, the profit tax rate from 2020 onwards has been changed from 24% to 20%. So, management adjusted the profit tax rate for deferred tax calculations in 2019 by using the new rate which will present deferred tax more appropriately.
- 5.2 Investment in BCEL-KT Securities Co., Ltd. After considering the definition in IFRS 11 Joint Arrangements, it was found that investment in BCEL-KT should be recognised as a joint venture since all resolutions relating to operations and finances are anonymously voted on. So, management restated financial statements by deconsolidating and recognising shared profit from investing in BCEL-KT.

The following tables show the affected financial information line items for each individual line item.

Financial letter of guarantees

Letters of credit (including standby letters of credit) and bank guarantees commit the Bank to make payments on behalf of customers contingent upon the failure of the customer to perform under the terms of the contract. Guarantees and standby letters of credit carry the same credit risks as loans. Credit guarantees can be in the form of bills of exchange or in the form of irrevocable letters of credit. advance payment guarantees. and endorsement liabilities from bills discounted.

Credit limit given to customers and other banks

Commitments to extend credit represent contractual commitments to make loans and revolving credits. Commitments generally have fixed expiry dates. or other termination clauses. Since commitments may expire without being drawn upon. the total contract amounts do not necessarily represent future cash requirements.

However. the potential credit loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific standards. The Bank monitors the term to maturity of credit commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

26. CAPITAL MANAGEMENT

The Bank maintains minimum regulatory capital in accordance with Regulation No. 536/BFSD/BOL dated 14 October 2009 by the Governor of Commercial Bank Supervision Department of BOL and other detailed guidance. The primary objective of the Bank's capital management is to ensure that the Bank complies with externally imposed capital requirements by the BOL. The Bank recognizes the need to maintain effectiveness of assets and liabilities management to balance its profit and capital adequacy.

In accordance with Regulation 536/BFSD/BOL. the Bank's regulatory capital includes 2 tiers:

- Tier 1 capital. which includes charter capital. regulatory reserve fund. business expansion fund and other funds. and retained earnings;
- Tier 2 capital. which is the lower of: 1,25% of total risk weighted balance sheet items; or outstanding balance of general provision and provision for risk and other expense during the six-month period.

Various limits are applied to elements of the capital base: qualifying tier 2 cannot exceed tier 1 capital. and qualifying subordinated liabilities may not exceed 50% of tier 1 capital.
